

RIDWAN

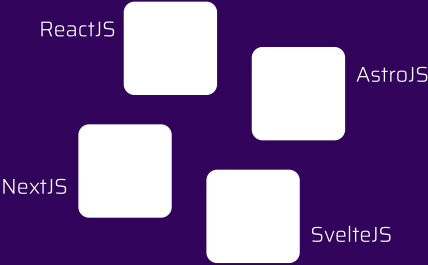

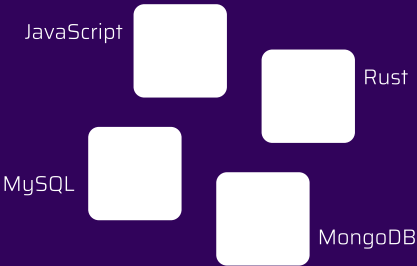

— Passionate Fullstack Developer

Meet My Tech Stack

Backend

I always want to achieve the fastest, most reliable system within my backend-side application

Frontend

I have a tendency to create a performant, delightful looking user interface regardless the target audience

My Experiences

- E-Lapor
- KPRS
- ILDUP
- ▼

E-Lapor

Data Analysis

School's Project

An app for reporting anomalies like litters around the school's environment to make it better and free from problems
